

Senesis a little piece of life...

Genesis Fine Arts has developed into one of Ireland's most iconic gift wear brands. The collection has grown from strength to strength, discovering new trends, designs and materials.

Over the last 30 years, our sculptors have explored various artistic avenues with a focus on nature, wildlife, people and places. Our collections also explore the rich history and heritage Ireland has to offer - producing iconic sculptures like the Irish mythical hero Cúchulainn, and our dear old Molly Malone.

Over the last few years we have developed more contemporary designs, playing with different finishes and textures. In recent years our newest designs have included a series of driftwood horse sculptures. These sculptures take hours of meticulously hand carving the unique strokes and features of the finished product. The sculptures come to life with precise details, showcasing power and strength. Sculpture and art at its finest.

In recent years our collections have explored the nature of modern day life, creating beautiful pieces to mark occasions; sculpting works of art portraying the beginning of life, childhood, love, weddings and retirements. This year's collection includes an offering depicting modern day illustrations of childhood, framed occasions and iconic Christmas scenes. To the top of this year's collection we have also added a stunning new candle collection – the fragrance of Wood Sage across our Home Fragrance Collection featuring a rich smoked bronze glass. A gift for everyone this season.

We hope you enjoy this year's collection as much as we do, we will continue to bring to you a little piece of life where ever we can.

Yours Sincerely,

Anthony Collins

Managing Director Genesis Fine Arts Ltd.
